

Building Specifications and Information

The Hatteras Village Civic Center is a spacious event area with many amenities. The main floor of the building is 40 feet wide and 62 feet long with a 4 foot soffit around the perimeter of the main floor. There is a beautiful bar with a sink and cabinets and a small refrigerator. There are two bathrooms, each with two stalls and double sinks. The spacious kitchen has a large ice machine, double stainless sinks and commercial double door refrigerator and a commercial freezer. There are two commercial gas stoves and a food warmer. There is also a walk-in cooler and freezer in the back storage room. The decking on the building goes 75% around the building with a large covered gazebo outside the doors. There is a concrete basketball court with three goals and a lighted marquee with interchangeable letters.
